[*Premature Use of Ventilators on Coronavirus Patients Do More Evil than Good*](#)
Doctors claim that coronavirus patients put on ventilators too early could cause their condition to deteriorate further... The process of hooking a patient to a ventilator involved sticking a tube into the throat or nose with the help of sedation. ... Deaths in patients put on ventilators are common, no matter what their diagnosis is. Some health officials suggest that forcing pressurized oxygen into the lungs can irritate the organs and cause injury to them. They also propose that using them on patients too early could worsen the inflammation in the lungs.

[*New Data Suggests It's Ventilators That Are Killing People*](#)
April 11, 2020
It turns out ventilators appear to be killing coronavirus patients en masse. ... It's looking like the overuse of ventilators could be the biggest mistake of the entire coronavirus crisis...

This is no mistake!

The anti-human psychopaths who run the medical establishment know exactly what they're doing.
They have been *softkilling* people with medication & vaccines for decades.

They are using ventilators to murder people!
